Contacting arXiv

Technical queries

If you have questions about paper submission, accounts, and use of arXiv, please first review [help](index.html) and [FAQ](faq/index.html).

Contact our User Support team via the [arXiv user support portal](http://arxiv.org/support/general_help).

Note that our user support team typically operates 0900-1700 EST/EDT, Monday through Friday. Most requests are responded to by the end of the day, subject to staff availability and holidays.

To avoid a delay in receiving a response:

* Please include all relevant details (especially submission or paper ids, URLs, etc.).

If you cannot access the portal you can also contact us by email at help@arxiv.org. If you do not get an automated email back that we have received your support request it is likely that your message was caught by our spam filter.

Moderation queries

For questions about the status of your submission, or for [appeals](moderation/appeals.html), contact us through the [moderation support portal](https://arxiv.org/support/moderation_help).

* Please include all relevant details (especially paper ids, former correspondence, submission summaries, etc.)
* Please be _patient_ , as moderation appeals are complicated and may take some time.

If you cannot access the portal you can contact us by email at moderation@arxiv.org. If you do not get an automated email back that we have received your support request it is likely that your message was caught by our spam filter.

Membership and Giving

Information about institutional membership or contributions to arXiv can be found at [Membership & Giving](../about/give.html), or contact membership@arxiv.org.

Copyright infringement

To contact Cornell University's designated agent for alleged copyright infringement, in accordance with the Digital Millennium Copyright Act, see [Copyright Infringements](http://www.cornell.edu/copyright-infringement.cfm).

Note: For queries regarding figure reuse for your manuscript, please contact the submitter or copyright holder directly.

Authorship Disputes

arXiv will not adjudicate [authorship disputes](authority.html) within a collaboration of authors.

Code of Conduct concerns

If you believe that a particular submission violates arXiv's [code of conduct](policies/code_of_conduct.html) please complete the [Code of Conduct reporting form](https://arxiv-org.atlassian.net/servicedesk/customer/portal/12/group/19/create/109).
