# arXiv

Trackbacks

Trackbacks indicate external web sites that link to articles in arXiv.org.

Trackbacks do not reflect the opinion of arXiv.org and may not reflect the opinions of that article's authors.

## Trackback guide

By sending a [trackback](<https://info.arxiv.org/help/trackback.html>), you can notify arXiv.org that you have created a web page that references a paper.

Popular blogging software supports trackback: you can send us a trackback about this paper by giving your software the following \_trackback URL:\_

> [https://arxiv.org/trackingback/{arXiv\\_id}](https://arxiv.org/trackingback/{arXiv_id})

Some blogging software supports `_trackingback autodiscovery_` \-- in this case, your software will automatically send a trackingback as soon as you create a link to our abstract page. See our [\[trackingback help page\]](https://info.arxiv.org/help/trackingback.html)(<https://info.arxiv.org/help/trackingback.html>) for more information.
